

MEDICARE CHANGES – 2025

Medicare Supplement Plans

Effective 1/1/25, this change applies to those on disability under the age of 65.

You can buy a Medicare Supplement plan with guaranteed coverage and no waiting period or denial for preexisting conditions. You have a 6-month period of time to enroll in a Supplement plan after going on Medicare (or through 6/30/25 if already on Medicare) to ensure these guarantees.

Rates for Medicare Supplement plans A, B and D cannot exceed rates charged to those aged 65 not on disability.

Rates for the plan options G, K, L, M, &N cannot be more than twice the rate charged to those aged 65 not on disability.
